

JOB DESCRIPTION

Research Associate to US Small Cap Portfolio Team

ABOUT US

Axiom Investors is a dynamic, global investment firm founded in 1998 and based in Greenwich, CT. With over \$13B in assets, Axiom manages global, small cap and emerging market equities. Axiom employs 50 diverse professionals whose experience and talent creates a culture of excellence.

Axiom exercises one, consistent investment philosophy across all strategies firm-wide. The philosophy underpins a fundamental, bottoms up framework. Our process combines carefully vetted empirical information with the insight and expertise of our seasoned investment team, allowing us to balance objectivity and nuance as we manage portfolios on behalf of our global client base. Unique to Axiom, our investment team analyzes thousands of data points and dynamically ranks equities using proprietary tools, a process that ensures the dynamic growth factors of a company are always monitored and positions are appropriately adjusted within our fundamental framework.

OPPORTUNITY

Axiom Investors is seeking a quantitative, organized, detail-oriented individual who is highly motivated and enthusiastic about working with the US Small Cap portfolio team. The position entails a variety of research and marketing responsibilities. The research will be focused on providing support in the healthcare sector and specifically therapeutics and/or medical technology companies. The ideal candidate is hard-working, driven, smart, accountable, efficient, self-reflective, humble and has exceptional communication skills.

RESPONSIBILITIES

- Support and continuously interact with the Portfolio Manager and Research Associate
- Monitor the portfolio and provide analytic support
- Contribute to the investment research process
- Maintain research database by tracking fundamental information

QUALIFICATIONS

- 2 – 4 years of relevant financial industry work experience focused on following therapeutics and/or medical technology companies
- Bachelor's degree with strong GPA that demonstrates academic excellence
- CFA designation or evidence of progress toward achieving designation is preferred but not required
- Proficient in Financial Accounting and Excel
- Experience using Bloomberg is a plus
- Works well within team environment

If you are interested in an opportunity at Axiom Investors, please send your resume and cover letter to careers@axiom-investors.com.
